# SUNLIGHT SERIES

FREE 1 HOUR AIA CREDIT COURSES FOR YOU  
AND YOUR TEAM, ONLINE OR IN-PERSON.

Inspiring  
Applications of  
Tubular  
Daylighting

Tubular  
Daylighting  
Devices  
(TDDs)

COURSE CATALOG 2023

# REIMAGINE YOUR NATURAL LIGHTING STRATEGY.

To schedule a FREE course, sign up [here](#) or please contact: Ina Song | [ina@lumenomics.com](mailto:ina@lumenomics.com) | (503) 875-7606

## CEU #1:

### Introduction to Tubular Daylighting Devices (TDDs)

The introductory course to Tubular Daylighting Devices (TDDs). Learn about strategies for using daylight, the technology zones and tools for TDDs, and how TDDs have been used in projects around the world.

AIA Program #: STI\_102\_2021 | 1 LEARNING UNIT HOUR | AIA - 1LU/HSW Credit | GBCI - 1CE

## CEU #2:

### Successful Daylighting for Wellness and Sustainable Design

Discover the important factors for daylighting interior spaces. See how Tubular Daylighting Devices (TDDs) contribute to sustainability, and see how sustainable projects have utilized TDDs.

AIA Program #: STI\_104\_2021 | 1 LEARNING UNIT HOUR | AIA - 1LU/HSW Credit | LEED AP - 1CE

## CEU #3:

### Inspiring Applications of Tubular Daylighting in Educational Facilities

See the impact daylight has on the learning environment and learn how Tubular Daylighting Devices (TDDs) can comply with the education industry's health & safety best practices and sustainability initiatives.

AIA Program #: STI\_108\_2021 | 1 LEARNING UNIT HOUR | AIA - 1LU/HSW Credit

## CEU #4:

### Inspiring Applications of Tubular Daylighting Devices

Learn how Tubular Daylighting Devices (TDDs) can be used as an effective daylighting strategy differently than windows and skylights, and how they effect sustainability and energy efficiency initiatives.

AIA Program #: STI\_106\_2019 | 1 LEARNING UNIT HOUR | AIA - 1LU/HSW Credit

## CEU #5:

### Predicting Daylighting Performance with New Modeling and Analysis Tools

This course will examine how optically complex fenestration products such as Tubular Daylighting Devices (TDDs) can be used to optimize daylighting solutions.

AIA Program #: STI\_110\_2021 | 1 LEARNING UNIT HOUR | AIA - 1LU/HSW Credit

## CEU #6:

### Storm Shelter Facilities with Tubular Daylighting Devices

See how Tubular Daylighting Devices (TDDs) are ICC500/FEMAP-361 compliant and able to withstand intense weather events like tornadoes to provide daylight to emergency storm shelters and facilities.

AIA Program #: STI\_109\_2021 | 1 LEARNING UNIT HOUR | AIA - 1LU/HSW Credit
